

To whom it may concern,

For the past two year I have been manager at Richard's on the park hotel. During this time I have endeavored to find a security company that can support our aim to fully comply with the continuing change of legislation for licensed premises, and to ensure the safety and well-being of both staff and patrons at all times.

Peter's knowledge of legislation and the security industry is second to none and his is level of professionalism is one that should be admired. His guards are trained to support his high standards and to provide above industry standard security, which they do.

The security guards are all AISM employees. None are subcontracted, which helps to ensure consistency with both AISM and Richard's on the park policies and procedures. The guards are always well presented and are provided with state of the art radios and head camera's that have audio capability. They are, punctual, polite, and professional and have become part of the Richard's on the park team.

I have been extremely satisfied with the service provided thus far and would recommend AISM for whichever security requirements that one might have.

Yours faithfully

Del Lumbard

General Manager
